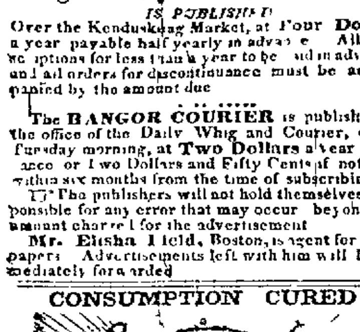
CONSUMPTION CURED!



CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above A remedy for the *complete cure* of all those affections of the Throat and Lungs which if neglected, always end in CONSUMPTION It is not a worthless, *catch penny article*, made just *to sell* like many of the common nostrums of the day but it is a strictly *scientific Preparation*—the original recipe having been furnished by an eminent Physician, (the late Prof Rogers,) and that still further improved by one of the present proprietors, who is himself a *regularly educated Physician* a graduate of the University of Pennsylvania It is composed of the choicest articles in the vegetable kingdom, most of them of long tried value and established reputation and some of them *entirely new* particularly the CANCHALAGUA, a plant of *most wonderful* medicinal virtues, lately introduced into this country from California. The Recipe has been shown to thousands of Physicians who have universally approved of it, and will be shown to any Physician who desires to see it upon application either to the Proprietors or their Agents It has been used in *multitudes of cases*, and is strongly recommended by *Physicians*, even *Professors* in our Medical Colleges, Ministers of the Gospel, Judges, Lawyers Merchants, Mechanics, &c —a conclusive proof that there is no *quackery or deception* about it but that it is a medicine of most uncommon virtue and efficacy

PAMPHLETS

As no ordinary sized advertisement can *begin* to do justice to the merits of this article, the Proprietors have embodied in a pamphlet form, the *history* of this Medicine—the *description nature*, &c of its principal ingredients—the *effect* they are designed to have upon the human system—and above all the *incalculable amount of good* which it has done They design to circulate this pamphlet extensively, but should any one be overlooked, they are earnestly desired to call upon the Agents named below, and procure one *gratis* The *hints* on page 7th may be worth to yourself or family THOUSANDS OF DOLLARS and it will introduce you to a mass of testimony in its favor which is perfectly irresistible.

Such being our confidence in its virtues we are willing to *warrant* the Medicine *in every recent case*, (if used according to the directions and where the person is not satisfied that he is not deriving benefit from it by returning the bottle within 24 hour's time,

THE MONEY

will be refunded ☞See page 3d of the Pamphlet

For sale wholesale and retail by A L SCOVILL & CO , Proprietors at their *Principal Office* No 65 Warren St , New York, to whom all orders for the Medicine and letters relating to agencies, should be addressed *post paid*

☞ Be sure to ask for *Dr A Rogers's Syrup of* LIVERWORT, TAR and CANCHALAGUA, and let no other be palmed on to you

Caution.—*None genuine* unless there is on the buff wrapper a *note of hand*, signed with a *Pen*, by A L SCOVILL & CO

For sale in Bangor, by LADD & INGRAHAM PRICE—In large bottles, $1 00 , or six bottles for $5 00

THE VEGETABLE PULMONARY BALSAM

Is the Most Highly Approved and Popular Standard Medicine now in General Use for

COUGHS COLDS AND CONSUMPTIONS, *Asthma Pleurisy, Phthisic, Spitting of Blood, Hooping Cough, Bronchitis*, and all Pulmonary Affections and Diseases of the Lungs and Chest!

It is thus spoken of by eminent Physicians One says—"For the above complaints it is superior to any other preparation used " Another—"It has been used with *wonderful* success, and has a superiority over every kind of medicine used " Another—"I can with *confidence* recommend it " Another—"It has been used with complete success, and I am *satisfied*, that it is a *valuable* medicine Another—"It is a *safe*, *convenient*, and very *efficacious* medicine "—Another—"It has in very many knowledge, disappointed the reasonable expectations of those who have used it " Another—"It is equal if not superior to any other medicine within my knowledge "

Extract from a letter dated Dayton, Ill, April 13, 1849 —"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived from it that we have not been without it in our house since I have so recommended it to at least fifty different persons since for Affections of the Lungs, and I do not know of a *single* case in which it did not give *immediate* relief and some were cured after being given up by Physicians "

BEWARE OF COUNTERFEITS AND IMITATIONS such as CARTER'S COMPOUND PULMONARY BALSAM, AMERICAN PULMONARY BALSAM, and others, bearing the name Enquire for the article by its whole name, the "VEGETABLE PULMONARY BALSAM," and see that it has the written signature of WM JNO CUTLER upon a yellow label, on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam "

Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints Chemicals and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles, when I became so satisfied that I contained opium, making a large amount of physic necessary, and also contracting the very organs that should be relaxed I used other kinds of patent medicines, but with no good effect seven weeks I continued gradually to sink under my illness at the expiration of which time I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time, I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough, difficulty of breathing, and low spirits My stomach at this time was so sore and weak that it was with difficulty I could stand erect, This was my situation when I commenced the use of N H DOWN'S ELIXIR —And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength I continued its use six weeks using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in *colds* and in a case of *measles*, and it has proved all that it is recommended to be

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J L TUTTLE

Camden, August, 184

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness which other medicines increases that difficulty

2d It is perspirant It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach— gives a good appetite and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves "ALL IT IS RECOMMENDED TO BE "

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE G W LADD CURTIS & PERKINS A P GUILD, WM MANN, G McFARLAND Bangor ; L S Smith, J W Curtis & Co , Hampden ; Chas Johnson, J B Chick, Frankfort , H P Fifield Bucksport , J Hooper, Jr , S P Hatch & Co Castine , B Nourse, Geo Parcher, Ellsworth , E P Butler & Co Orono , J & R Fisk, H & J Y Richardson Oldtown , Wm O Poor, Belfast Chas A Macomber R T Slocomb, East Thomaston

Oct 19 1849, 3tawd&wtmay 1850.

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony.

We, the undersigned, have ourselves or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

Geo Fitts,	Doct Aaron Young Jr
Albert Holton,	David Worcester,
Wm H Mixon,	Simon F Walker,
Geo Hammett,	John Hackins,
G. F Sargent,	O H Ingalls,
Isaac W Patten,	John Appleton

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived ALBERT EMERSON

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With U. S. Patent Office.

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents , and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of sixteen years practice, an extensive collection of rare works, decisions &c, on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in their respects might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.— During the time I occupied the Office of Commissioner of Patents, R H EDDY, Esq of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office , and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents

Aug 7, 1849 (Sep 1 1850

HONEY! HONEY!!

BY BEES FED.

WHO ever supposed that the management of Bee and the making of Honey would be rendered a certain and profitable business? Yet it has been, and can now be done by all wishing to engage in the business.

A citizen of this State has invented a mode of treatment by which Bees can be managed without difficulty, and at a small expense, honey made at the rate of from three to four hundred pounds per swarm, each season, The right of adopting and using this mode has been secured by Letters Patent, and the subscriber has purchased that right for the County of Penobscot, so that he now offers the same to others either by town or individual rights as may best suit purchasers and on such terms as bring it within the reach of all wishing to engage in it

The advantages gained by this Patent, are—

1st, A perfect command of the Bees, and a large increase of the swarms, without the trouble of hiving

2d, A full security against the danger of robbing by neighboring Bees

3d, The honey is of a better quality, and much more in quantity per swarm, than has ever been made by Bees managed in any other manner This is done by feeding, as by that means the Bee is not only rendered independent of flowers for his supplies, but able to give his whole time to the work of making and storing his honey

4th, The opportunity is afforded of taking the honey at any time without disturbing the Bees

Lastly It furnishes a fine opportunity for all professional men of small salary to make a good addition to their income, and to aged persons and persons of feeble health to support themselves independently and that to with little or no labor

Such being the advantages gained by this Patent the subscriber recommends it to the public and assures all wishing to purchase, that, on trial, they will find it answering their highest expectations

His residence is at this place, where he will be happy to answer all those who may address him (post paid) on the subject

FRANCIS A GATES

East Corinth, Nov 6, 1849

GREAT IMPROVEMENT IN *Planing, Tongueing, and* Grooving Lumber.

JOSEPH P. WOODBURY'S Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same This machine will plane 6,000 feet of boards to any uniform thickness, in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane, and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use The construction and organization of this machine is different from any other now in use Communication for further particulars cheerfully responded to by addressing the subscriber, (post paid,) Boston, Mass

One of the above Planing Machines may be seen in operation by calling on the Patentee

WEDNESDAY, JANUARY 23, 1850.

Great Railroad Meeting at the City Hall This Day.

The committee on behalf of the Railroad corporators for a road from this city to Waterville, have for some time been zealously engaged in making arrangements for a series of railroad meetings, the first of which has been notified to be held in this city to-day at two o'clock, and to which the ardent friends of railroad enterprises throughout the State have been invited, and assurances have been given that several of them will be present, and ready with their facts, figures and experience in the matter.—Such a meeting, with the time occupied by those who are familiar with the subject, will do much to make the subject understood, and to impress the minds of our people with the importance and the feasibility of commencing immediately in the construction of the road, and the necessity as well as the propriety of relying mainly upon our own resources.

Our capitalists should be present and thus make themselves acquainted with the subject, and prepare themselves for promoting the object. We have tried very hard to get them to invest a portion of their capital in manufacturing here, but have not been successful, and we now hope to see them wake up to their own and the interest of the city, in investing a liberal portion of the capital they have accumulated here, in doing something to help the city.

It seems to be generally agreed and believed, that the railroad from this city to Waterville is soon to be built. This may be true, but that depends altogether upon the determination of our people regarding it. If they do not take an interest in it, and invest their money in it, and urge it forward, it is very sure that the road will not be built. And if there is not sufficient enterprise to engage in this work there may not be enough to engage in other works, and the city daily along, a few men making large gains and the many just living along, and the city of Bangor scarce maintaining her natural increase, because offering feeble encouragement, compared with other places for people to make this their home.

Many people believe that much relating to the welfare of the city depends upon the spirit and zeal with which this enterprise is taken hold of and carried forward. Many see much of advantage to the city in its immediate construction. These things are sufficient to make our people, the whole people, anxious to gather up all the information possible bearing upon the subject, and for this purpose they should, as one man, attend the meeting to-day, when the subject will be unfolded and some of the strongest arguments in favor of the road clearly and forcibly stated. Our word, then, is to our citizens, one and all, ATTEND THE RAILROAD MEETING THIS DAY.

☞ The Jeffersonian is out this week in favor of a thorough weeding of the Democratic party, and makes the great test whether one shall be deemed a weed or the real grain, the fact whether he has voted for a "Federalist," which being interpreted signifies in the mind of the Jeffersonian, a Whig! The necessity of this weeding process arises on account of a few Southern locos voting for Mr. Campbell, Clerk of the House of Representatives. This voting for a Whig is a rank offence in the eyes of the Jeffersonian. It overrides Free Soil and all other issues. It is to be made the prevailing and distinguishing stripe. If a loco votes for a Whig he is to be weeded out of the party and thrown upon the dung hill.

Political history lies in the mind of our youthful neighbor in a confused jumble. An instance or two, in his weeding article, we refer to as illustrative of the fact. He refers to Jackson as one whose faith was inflexibly against a United States Bank. But has not the Jeffersonian learned that Gen. Jackson suggested to Congress the propriety of establishing a Bank founded upon the credit of the government and its revenues, which would secure to the government and the country all the advantages of the U. S. Bank? And repeated the suggestion, and declared his readiness to furnish a plan of such an institution? The allusion to Gen. Jackson, then, by the Jeffersonian, is extremely unfortunate.

The Jeffersonian in fixing upon the principles which should govern its party, spreads them out over the administrations of Monroe, Jackson, and Van Buren. If this means anything of significance to the present times and present opinions, it must be in favor of the abandonment of all Free Soil issues, and bowing the neck submissively to the will and wishes of slavery; since no man ever went further than Martin Van Buren in that direction.

We understand from its leader this week, the present position of the Jeffersonian to be a close fellowship with all branches and opinions of the party, excepting only those who bolt from nominations or vote for Whigs; those are the unpardonable sins, and all else may and ought to be winked at and forgiven. This doctrine is brought out now on account of the "outrage" of some of the loco members of Congress not voting for Forney for Clerk, who has crept in the very dust to place himself right with the slave power. This furnishes a great occasion for overhauling the party, and the Jeffersonian will probably carry it through with great eclat. It strikes us that the "weedings," one way and the other, have interfered somewhat with the strength of the Democracy, and the process continued North and South will make it a little too small for efficiency in any case of emergency. Its power is now broken, and it is a matter of indifference with us how finely it shall be spun out.

The ship Edward Everett, which left Boston for California about a year ago, with 150 passengers, is now on her return with, it is said, 200 passengers. She has passed from the hands of her original owners, and has been purchased by Dr. Abbe, of Boston.

☞ The Salem Register states that Capt Nathaniel Osgood, of that city, aged seventy-two, died at the mines in California, about the 18th of November.

Wayland—Channing—Beecher.

These three great lights in the different branches of the Christian Church, have given their testimony against the sin of Rum-selling. We wish that the rich might hear and heed them—that men who cease their stores to this destructive traffic, would lay the matter to heart, though their purses be thereby lessened. Hear them:—

When you order a cargo of intoxicating drink, think how much misery you are importing into the community. As you store it up, think how many curses you are heaping together against yourself. As you roll it out of your warehouse, think how many families each cask will ruin. Let your thoughts then revert to your own fireside, to your wife and to your little ones; look upward to Him who judgeth righteously, and ask yourself—IS THIS RIGHT? [Wayland.

It is the capital of the rich which erects the distillery, and surrounds men with temptations to self-murder. The retailer takes shelter under the wholesale dealer, from whom he purchases the pernicious draught: and has he not a right so to do? Can we expect that he should shrink from spreading, on a small scale, what others spread largely and without rebuke?—[Channing.

Dr. Beecher compared the liquor traffic to a machine, to stop whose motion, said he, "you must destroy the power that gives the whole life and motion. So with liquor sellers: it was not by stopping the retailer, but by stopping the men on Long wharf and Central wharf, and who are clothed in broadcloth and fine linen, who live in Beacon street and Summer street, and who fare sumptuously every day."

We venture in this connection to remark, that while the rich and the influential ease their stores, freight their ships, employ their capital and keep in motion to the more respectable parts of the machine of liquor selling, there will be found a lower stratum who will sell the article and debase themselves by its use, and a stratum still more profoundly deep, who, in defence of the liquor business, will mob, strip and maim the advance guard in the cause of temperance.

☞ The loco engineers are preparing the way to hoist with their own petard in what they require of Senators relative to the nominations of Gen Taylor. The Boston Times says that every Senator who voted in favor of Mr Bradbury's proposition will, unless the President's response should be of a very different character from what we think it will be, find himself compelled to vote against the confirmation of very many gentlemen now luxuriating in very high grass. It would seriously damage the democratic party to permit the confirmations to be made, unless it shall be clearly established that the persons whom they were appointed to succeed were unfaithful officers either through their being rogues or imbeciles."

The Times is destined to a bitter disappointment, and alas! for the condition of those removed!

☞ The Lowell Telegraph states that O. A. Brownson, Esq., was hissed by a Catholic audience in New York, for some disparaging remarks uttered by him against the gallant Hungarians. So distasteful are his writings to the generality of the Catholic community that a concert and lecture are to be given on Thursday the 24th inst., in the Melodeon, in Boston, to raise funds to support his Review.

Some idea of the extent to which the freedom of the press exists in France, under the government of Louis Napoleon, may be gathered from the following extracts of a letter from Mr Walsh, late United States Consul at Paris:

"La Peuple, the daily paper founded by Proudhon, has undergone, in eight months of existence, eighteen prosecutions and convictions. The sentences amount altogether to thirty-four years of imprisonment, and a very large sum in fines. Five of its editors are now in jail, and one is in exile. It survives under a new title."

The Philadelphia North American, from certain *data* which it exhibits, estimates the present population of the Quaker city at 470,000 souls, of which 10,000 are free persons of color. Philadelphia has made tremendous strides within the last ten years, and the probability is, that the next census will show a larger population than New York can show. Thirty five hundred houses were built there last year!

☞ The Boston Times thinks it will show a want of pluck on the part of the Democratic Senators, if they do not reject the nominations made by Gen. Taylor. Well: we shall see how they stand that test. The fact is, that the loco press demands more of their Senators than will be granted.

Postmaster Hayden, in a communication to the Boston Post, states that the correspondence with the British-American Provinces is not provided for by the postal treaty recently negotiated with Great Britain,—consequently all matter must be prepaid, or it will be returned to the dead letter office at Washington.

Mr. Thurston, the Oregon delegate in Congress, was in 1844 a citizen in Maine, and moved from thence to Iowa; the next year he started, with his wife, two children, and an ox team, for Oregon, driving the team himself 2600 miles, to the Columbia river.

☞ The locos all about, claim a majority of the votes in California, but for the purpose of standing well at the South they insist upon it that the Whigs carried the anti-slavery clause of the Constitution recently adopted. It puzzles them a little to explain this matter.

☞ We should have mentioned a few days since when we published the letter of Capt. Wiggin, that the beautiful specimen of gold which he kindly sent us, came safely to hand and makes a part of our California museum box.

☞ We learn with the highest pleasure that several young men of our city have recently resolved among themselves to abstain henceforth and forever from the use of intoxicating drinks. This intelligence is indeed heart-refreshing.

☞ On referring to our advertising columns, the reader will learn that Messrs J A Wallis & Co have opened well furnished and convenient Oyster Saloons,—one for gentlemen, and another for Ladies. They have their establishment in good order.

☞ The editor of the Gloucester News, a Bachelor, with no wife, no responsibilities, no comforts, and nothing of that sort, threatened to board round among his delinquent subscribers, but this was too much for them and they all paid up the old score and something in advance.

By means of a chemical discovery recently made, it is said that oil of turpentine can be freed from its peculiar smell so completely that not only is it rendered inodorous, but it can be impregnated with any desired perfume without deteriorating its useful properties.

☞ Owing to the severity of the storm or some other cause, the Telegraphic wires could not operate last night, and we are consequently without our despatch.

☞ Several tons of round hogs have been brought to our market from Vermont, by the steamboat from Portland. They are not esteemed equal to those raised in this vicinity.

☞ We understand that some of our people who recently emigrated to Wisconsin, are doing a good business there in lumbering.

☞ There was an old-fashioned snow storm in this vicinity yesterday.

☞ The accounts from the woods are quite favorable as to lumbering operations.

☞ House thieves are numerous in Lowell, Mass.

[For the Bangor Courier.]

Rail Roads for Farmers. No. 24.

Population.

A stern and imperitive necessity is pressing upon the people of our city and county and State, the importance of engaging more and more in manufactures, in order to retain and increase the population and business of the State.' [Bangor Courier.

Gov Dana, in his last message to the Legislature, says he has no doubt but that 'the general application of science to agriculture throughout the State, would double our agricultural products, with but a slight increase of labor.'—So much of this message as related to the subject of Agriculture and the establishment of an agricultural school, was referred to a joint select committee of the two houses. This committee through their chairman, 'made a very learned report, in which they say:—'Population is the general rule that measures a people's greatness; and the governing law of population is the facilities for its support. There exists no restriction upon the prolific nature of plants or animals, save as it is limited by nourishment. This enevitable law of food and population is written on the destiny of every nation. Mark it along the stream of life, from the sparcely peopled hunting tribes, through all the grades of pastoral and agricultural employment, until you meet the teeming millions of fertile China.'

In this survey it will be found that population ever increases, on the whole, in the direct ratio of agricultural production.* Thus increase that production 50 per cent, and the population increases 50 per cent.'

'What are the effects of augmented population upon the interests of Society?

1. Upon the producer. By so much as population is augmented is the market widened for his products; thus making a quicker and larger return for his capital and labor. And as production is the great source of wealth to all classes, and this wealth the means of developing new desires, producers above all others, hold the instrument of wealth, since they alone can gratify those new desires which they have stimulated into being.

2. Upon the consumer this increased agricultural production, and corresponding population, is highly beneficial. By increasing that production in our State a hundred per cent, as may be done with the same outlay, the number of people, here or elsewhere, will be doubled by the process. If the new population reside here, each person will have twice as many customers as before, with profits increased in that ratio; if elsewhere, the advantages are greater still for to convey those products to an other State or nation requires numerous other occupations. Is a cargo of iron or other produce, to be sent out of the country? The drowsy mine awakes and sends forth the axe and the saw—the product of an hundred trades—to the forest. The lumbermen catch the impulse, and anon the forest is at the sea-side, and a hundred other, thus brought into life construct the stately vessel. Afloat, she must be manned, loaded and cleared for sea. Thus, agricultural production puts into action and profitable motion, the whole range of trades, arts and science—especially all those concerned in commerce and navigation.'

The report was accepted, and referred to the next legislature.

The principles established by this report, as the policy to be pursued by Maine, are;

1. Population is important to the greatness of a State, but it is better to have this population in some other State than in our own State; because, if the population elsewhere, are such fools, as we are, as not to produce a supply for their own wants, and we can double our productions by the aid of an agricultural shool and a little chemistry, or 'science,' we shall have the profits of the transportation.

2. To dig in 'the drowsy mine, and to send forth the axe and the saw to the forest,' and a hundred other trades are more important to a State than agricultural production.

These principles are inculcated extensively. But are they sound?

'The certainty that there will be a comparatively small amount of lumber brought to our market the next season, naturally suggests the thought that the industry and the capital which has been heretofore employed in the lumber business, must be directed into new channels. The almost total failure of the wheat crop and of the potatoe crop, in Maine, has taken away from the farming community, their main reliance, for exportation and brought no little discouragement in the pursuit of that branch of business. It cannot be expected, then, that capital and labor will suddenly rush into farming, in the vicinity, and if they did, would any very special advantage be derived therefrom by the city of Bangor.'

'The present aspect of business in our city, seems to demand the serious attention of every one who has any interest in the growth and prosperity of the city. There never were so many idle men in our city as now, showing that there is not a demand for labor. Capital perhaps never felt so little disposition to engage in any new enterprise.' [Bangor Courier.

And so it would seem, that the policy of this State is, to build up cities and villages independent of the country in the vicinity. Idle men, and idle capital, must remain idle in the city, because, 'if employed in farming, in the vicinity, no very special advantage would be derived therefrom by the city of Bangor.'

In pursuance of this policy, for the last two years, small credits have been withheld, and capital withdrawn from the farmer, as far as it has been conveniently practicable to do so.—And now we have an other cause for withholding credit and withdrawing capital from farming, namely: the homestead exemption law. We are told now that no man can be safely trusted unless he is worth more than fifteen hundred dollars, And are men less honest and less worthy of credit than before the passage of that law? No. But it is made a pretext of, to carry out the policy of cripling agriculture, to build up a great manufacturing interest. It is quite common to hear poor men denounce the homestead exemption law for, say they, before the passage of that law our credit was good; now it is good for nothing.

The important question, in connection with this subject is, what effect has this policy had upon population? of city and country? And what effect will it have in future?

A GLENBURN FARMER.

*The population of a State is always proportionate to the sum of its production. Say's Political Economy, Paley, Malthus, Sismondi, Pirards and other writers on political economy, advance the same opinions.

REMARKABLE RIVER. The Florida Sentinel contains an account of the examination by a committee of scientific gentlemen of the river Wacissa, in Florida, with a view of testing its capacity for a water power for manufacturing purposes, and the practicability of connecting it with the St. Marks by a canal. The head waters of the river are *thirty-two feet* above the high water in the St. Marks, at Newport. The Wacissa takes its rise, like the Wakulla, in springs of great volume, forming an immense basin with bold shores, from which it runs in a S. S. E. direction, in a deep and broad stream about fourteen miles to a swamp, where most of it disappears through a subterranean channel, by which it is discharged into the gulf. This river is said to contain a greater volume of water than the Potomac or James river, and, like all rivers having a similar rise in Florida, it is affected neither by drought or freshet, affording one steady, uniform and unvarying current all the year. The committee are of opinion that more than ten times the water power of Lowell can be found there at a small expense.

Dr. Channing says: "The greatest man is he who choose the right with invincible resolution, who resists the sorest temptations from within and without, who bears the heaviest burdens cheerfully, who is calmest in storms, and most fearless under menace and frowns, whose reliance on truth, on virtue, on God, is most unfaltering."

Boot-makers, have great faith in their shoe leather. A tight pair of boots was never tried on yet but what the suffering martyr was assured "that it would be all right in a day or two—the leather would be sure to stretch."—But while the leather is coolly stretching itself, you are sowing the seeds of a plentiful corn crop.

Mr. George F. Parkman, son of the late Dr. George Parkman, returned from Europe in the steamer Canada at New York, and arrived in this city yesterday. He was on a tour to the Continent for the benefit of his health, but was sent for when it was first supposed that his father was no longer living.— Boston Times.

[From the Boston Journal.]

"The Cottage for Me!"

Wanted, to purchase a cottage ornee,
Very small—just to answer for two,
For two who remain to d spel so the sweet joy
Hospitality claims as her due.

There must be a room for a friend—one or more,
But the compass of each may be small,
For the heart can expand in the lowly abode
As free as in loftiest hall.

There must be room for my birds and my flowers,
Where in spring I can station the best—
Where my muse can awake to sweet fragrance and song,
Or folding her wing, so at rest.

With a little ten-room—one small parlor will do,
As there must be for me and, my friend
A pretty boudoir for quiet and talk,
Where our books and our music may blend.

The water—O that must be plenty and pure—
As fresh as the spirit within;
French windows are best, and the kitchen must be
As convenient and "neat as a pin."

More than all, I would have six or eight ancient trees,
But the cottage, of course, should be new;
Well, perhaps I may find one upon an old place,
With these patriarchs always in view.

I must have the trees—they must guard me around,
They inspire one with reverence and right;
Where by day I can sometimes recline in their shade,
And hear the winds through them at night.

I should like a small stream with its burden of song,
As it ripples above its dark bed,
But I do not exact it as one of the things
That I *must* have, as heretofore said.

No matter how much of a shadow may dwell
On the place; should there be many trees,
I can make my own sunshine, as many well know,
And dispense it whenever I please.
Should you, Mr. Editor, meet such a place,
Just address me a line—I'm not far—
And the cash shall be paid on possession thereof,
Most sincerely your friend, A. M. R.
Roxbury, Jan., 1850.

OVERCOATS—How much a man thinks of an overcoat, until he is obliged to creep into one.—At OAK HALL, Boston, they have furnished more 10,000 persons with these garments since cold weather came on.

☞ DOCT. MANN, of the *Down East Screamer*, came to the city a few days since. We gave notice that he would step awhile, for the purpose of dealing out a few bottles of his *Cream of Life*. Just as the invalids began to hobble towards the New England House, he snatched himself away, to see some of his patients at home. He has been specially called again. He will be here on Saturday, with a few of his invaluable specifics. Those who have given up the hope of getting well by science and poison, may call and get restored to perfect sound health, by *Strippings and Molasses*. Call soon for it is rather a dry time, now, for Cream. A. A. M.

C. P. FESSENDEN'S
WRITING ACADEMY open day and evening, at No. 74 *Main Street*. Mr. FESSENDEN, thankful for the flattering patronage bestowed upon him (and having located himself permanently in this city, as a teacher of penmanship) would solicit a continuation of the patronage of all those who wish to acquire an easy rapid and graceful system of writing, fitted for the counting room, or for ladies in epistolary correspondence. Those wishing to fit themselves to teach, will be fitted upon reasonable terms.
Cards marked to order with neatness and despatch
Terms—for 12 Lessons,—Gentlemen, $1.50. Ladies $1.00. Payment in advance. nov 2

☞ COUGHS, COLDS, &C.
Those who wish to learn what will certainly cure, and in the shortest possible time, the most obstinate and distressing Coughs, Colds, and all other Lung Complaints tending to Consumption, are advised to read the advertisement of *Dr. A. Rogers' Liverwort, Tar, and Canchalagua*, in another column.
jan 16 3awd&w1m

☞ JOB PRINTING of all kinds—Pamphlets, Catalogues, Shop Bills, Bank Checks, Placards, Concert Bills, Visiting and Business Cards, Posters, &c., &c.—neatly and promptly executed at This Office, upon moderate terms.

MARRIED:

In this city, on the 1st inst., by Rev. Mr. O'Sullivan, Mr. Owen Moran, to Miss Mary Ann Martin, both of this city.

Great Rail Road Meeting.

THE citizens of Bangor, and other persons feeling an interest in the organization of the *Penobscot and Kennebec Rail Road*, are requested to meet at the City Hall, in Bangor, on WEDNESDAY, the 23d day of January, inst., at 2 o'clock, P. M.
The true welfare and prosperity of our city, demands the building of the Road, and Bangor should by the acts of her citizens, manifest the deep interest she has in the great enterprize which will immediately connect her with the rest of New England.
Addresses may be expected, and we hope to see a large and enthusiastic meeting.

Wilder's Patent
SALAMANDER SAFES
90 STATE STREET,
CORNER OF MERCHANTS' ROW.
Secured against Gunpowder
....AND....
WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.

THESE are the *only Safes* (WILDER'S PATENT,) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city, and many others, too numerous to mention.
The above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor, at the manufacturers prices, by FISKE & HALE.

☞ The Following Letter from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—
BANGOR, Oct. 24, 1849.
John E. Wilder, Esq—
Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours: the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it, It is still as good as new.
Respectfully yours, JAS. EDDY.
Nov. 22, 1849. d6mis

FOR SALE.
Lumber Wharf in New Bedford.
THE subscriber offers for sale the Lumber Wharf, now occupied by Wm. Wilcox, and next Wharf to the Steam planing Mill.
This Wharf is within five minutes' walk of the Banks, and the business of the city, and very near the Wharves, where much ship-work is done. It is the most convenient location for the lumber trade, in one of the best markets in Massachusetts.
B. RODMAN.

CONSUMPTION

to all Christianized and civilized countries, has caused a larger proportion of deaths than any other malady that afflicts the human family; and, until within a few years, there has not been any *certain remedy* to stop the devastation of that destroyer. But now—

BRANT'S INDIAN PULMONARY BALSAM

cures very many of the most *strongly marked and developed cases of* PULMONARY CONSUMPTION—*real, undoubted* cases of *ulcerated and diseased* LUNGS—such hopeless cases as were never before cured by any other medicine. So *utterly hopeless* were some of the afflicted persons, as to have been pronounced by *physicians* and *friends* to be ACTUALLY DYING. Some, who had their burial-clothes made, have been cured, and yet live; others, who it was said would not live another day, are now as well and hearty as they ever were.
It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

The Balsam differs from the Extract, because it possesses *several medications which are peculiarly adapted to, and are essentially necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

This BALSAM HEALS AND CURES ULCERS *in the LUNGS*, and elsewhere *internally*, as *certainly and easily* as the PURIFYING EXTRACT *cures* and *heals* ulcers *externally*. This Balsam cures NINE cases of *Cough* and *Consumption* out of TEN, after all other remedies have *failed to do good*.

Thousands of Consumptions

and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases, and its undoubted curative power, and soothing, healing properties, in the following complaints and diseases, viz.: *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night-Sweats, Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery* and *Summer Complaints* in *Children* and *Adults*, and ALL FEMALE WEAKNESSES.

CONSUMPTION.
A DYING WOMAN CURED!!

We state this cure, to prove the POWER TO SAVE LIFE, when this BALSAM is used, even after the person is *considered by physicians and friends* to be in the *last stages of disease*—actually DYING—and, in this case, SO FAR GONE, *that the* SHROUD *and* BURIAL-CLOTHES *were bought!!* For the *particulars* of this case, and the *respectable and undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS. This cure was effected on Mrs. Z BA DYKEMAN, of *Ballston Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many others, almost equally hopeless*, and *innumerable* cases of *Coughs and Consumptions CURED*, which were *pronounced incurable* by SKILFUL PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale Co., Michigan*, about the 1st of January, 1849, wrote as follows: "I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *Chronic Disease of the Lungs*, as to convince me that I HAD THE CONSUMPTION, past doubt. I coughed almost incessantly, night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of the profession, all to no effect, excepting the nausea and debility caused by them. I was prejudiced against patent medicines and have no faith now in them generally. But I was induced—as an experiment, more than through faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM; and I do here acknowledge, for the benefit of the afflicted, or whom it may serve, that the effect of its use on me was the most prompt and salutary of any medicines I ever witnessed the effect of in all my practice. *My cough was immediately relieved*, and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider and *pronounce myself* A WELL MAN." Dr. French is now a respectable druggist at Hillsdale

FITS, FITS, FITS.

Messrs. J. K. LIPPINCOTT & SON, respectable merchants at *Hillsgrove, Sullivan county, Pennsylvania*, wrote to us, May 12, 1849, stating, among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S BALSAM.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio*, wrote to us, October 2, 1848, and stated a cure of CONSUMPTION which the use of BRANT'S *INDIAN PULMONARY BALSAM* had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster, *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton. He was *given up* by his physicians and all friends, as one who would soon *inhabit a grave*. But even at the last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a *healthy, hearty, rugged man!*

S. D. DANN, Esq., *merchant and postmaster at Jefferson*, an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr. CROCKET, and *testified to his* CURE, *and all the above-named facts*.

Could not Live a Day longer!

Messrs. E. B. CALDWELL & CO., of *East Oswego, Oswego Co., N. Y.*, respectable druggists, wrote to us: "We have just heard, through Mr. Whiteman, a respectable citizen of this place, of an important cure of *Consumption*, which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to *live more than* ONE DAY LONGER. But, when all other hope utterly failed, she commenced taking *BRANT'S PULMONARY BALSAM*, and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties*. She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness; and her friends and neighbors consider that medicine invaluable."

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants of West Cornwall, Conn.*, said BRANT'S BALSAM had effected cures of such hopeless cases of CONSUMPTION in their town, that now no other cough-medicine could be sold there; that *it had raised some as if from the GRAVE*—*some* that physicians and all the friends said MUST DIE! One gentleman, in particular, was so far gone, that his physician *told him* it was *useless to take any more medicine*. He then, *when no hope was left*, began to take BRANT'S BALSAM—GOT WELL—*and is now as well as ever he was!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *Clyde, Wayne county, N. Y.*, wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said: "If the statements of some of our most respectable people, and personal, visible knowledge, can be relied on, *its* medical virtues have cured *many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure; and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH!"

LUNGS BLED—MUST DIE!

Mr. Z. S. TERRY, *merchant Byron, Genesee county, N. Y.*, wrote, August 24, 1848: "BRANT'S medicine is doing wonders here. It has cured a man of *Consumption* that all the physicians had said *must die*. When he commenced taking Brant's medicine, he could not raise his hand to his head; *he bled at the lungs*, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor, and rides all over the county. He used *only five bottles*. It has also cured a young lady of *Consumption* in Orleans county, which her father says *no doctor could cure*." Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

WAS BELIEVED PAST CURE.

Mr. CORNELIUS H. SMITH, merchant, *Collins Centre, Erie county, N. Y.*, January 16, 1849, said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give *better satisfaction*, than all the other medicines we have for sale. The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE. They said she MUST DIE with a *Consumption of the Lungs*. After all had pronounced the case HOPELESS, she commenced taking *BRANT'S BALSAM*—and now *she is well*."

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, *in children or grown persons*, cured *without any failure whatever*. Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather—*Cholera Infantum*, or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child. It should, however, in *such cases*, be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked.

CONSUMPTION.

[...] in all Christianized and civilized countries, has caused a larger proportion of deaths than any other disease that afflicts the human family; and, until within a few years, there has not been any certain remedy to stay the devastation of that destroyer. But now

BRANT'S INDIAN
PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION, *and undoubted cases of ulcerated and diseased* LUNGS—such HOPELESS cases as were never before cured by any other medicine! So utterly hopeless were some of the afflicted persons, as to have been pronounced by *physicians* and friends to be actually DYING. Some, who had their burial-clothes made, have been cured, and yet live; others, who it was said would not live another day, are now as well and hearty as they ever were.

It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

The Balsam differs from the Extract, because it possesses *several medications which are peculiarly adapted to, and are essentially necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

This BALSAM HEALS AND CURES ULCERS in the *LUNGS*, and elsewhere *internally*, as *certainly* and *easily* as the PURIFYING EXTRACT cures and heals ulcers *externally*. This Balsam cures NINE cases of *Cough* and *Consumption* out of TEN, after all other remedies have *failed to do good*.

Thousands of Consumptions

and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases, and its uncoubted curative power, and soothing, healing properties, in the following complaints and diseases, viz.: *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night-Sweats, Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery* and *Summer Complaints in Children* and *Adults*, and ALL FEMALE WEAKNESSES.

CONSUMPTION.
A DYING WOMAN CURED!

We state this cure to prove the POWER TO SAVE LIFE, when this BALSAM is used, even after the person is *considered by physicians and friends* to be in the *last stages of disease*—actually DYING—and, in this case, SO FAR GONE, *that her* SHROUD *and* BURIAL-CLOTHES *were bought*. For the *particulars* of this case, and the *respectable and undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS. This cure was effected on Mrs. ZIBA DYKEMAN, of *Ballston Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many others, almost equally hopeless*, and *innumerable* cases of *Coughs* and *Consumptions* CURED, which were *pronounced incurable* by SKILFUL PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale Co., Michigan*, about the 1st of January, 1849, wrote as follows: "I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *Chronic Disease of the Lungs*, as to convince me that I HAD THE CONSUMPTION, past doubt. I coughed almost incessantly, night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of the profession, all to no effect, except to ing the nausea and debility caused by them. I was prejudiced against patent medicines, and have no faith now in them generally. But I was induced—as an experiment, more than through faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM; and I do here acknowledge, for the benefit of the afflicted, or whom it may serve, that the effect of its use on me was the most prompt and salutary of any medicines I over witnessed the effect of in all my practice. *My cough was immediately relieved*, and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider and *pronounce myself* A WELL MAN." Dr. French is now a respectable druggist at Hillsdale.

FITS, FITS, FITS.

Messrs. J. K. LIPPINCOTT & SON, respectable merchants at *Hillsgrove, Sullivan county, Pennsylvania*, wrote to us, May 12, 1849, stating, among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S BALSAM.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio*, wrote to us, October 2, 1848, and stated a cure of CONSUMPTION which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster, *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton. He was *given up* by his physicians and all friends, as one who would soon *inhabit a grave*. But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a *healthy, hearty, rugged man*.

S. D. DANN, Esq. *merchant and postmaster at Jefferson*, an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr. CROCKET, and *testified to his* CURE, *and all the above-named facts*.

Could not Live a Day longer!

Messrs. E. B. CALDWELL & Co., *of East Oswego, Oswego Co., N. Y.*, respectable druggists, wrote to us: "We have just heard, through Mr. Whiteman, a respectable citizen of this place, of an important cure of *Consumption*, which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to *live more than* ONE DAY LONGER. But, when all other hope utterly failed, she commenced taking BRANT'S PULMONARY BALSAM, and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties*. She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness, as her friends and neighbors consider that medicine her savior."

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants of West Cornwall, Conn.*, said BRANT'S BALSAM had effected cures of such hopeless cases of CONSUMPTION in their town, that now no other cough-medicine could be sold there—that *it had raised some as if from the* GRAVE—some that physicians and all the friends said MUST DIE. One gentleman, in particular, was *so far gone*, that his physician said that it was *useless to take any more medicine*. He then, *when he was left*, began to take BRANT'S BALSAM—got WELL—*and is now as well as ever he was!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *[...], Wayne county, N. Y.*, wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at [...], and said "*in* the statements of some of our most respectable people, and personal visits to knowledge, can be relied on, its medical virtues have cured *many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure, and yet, the facts are, BRANT'S BALSAM *has* restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

Mr. Z. S. TERRY, *merchant, Byron, Genesee county, N. Y.*, wrote, August 24, 1849: "BRANT'S medicine is doing wonders here. It has cured a man of *Consumption* that all the physicians had said *must die*. When he commenced taking Brant's medicine, he could not raise his hand to his head, *he bled at the lungs*, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor, and rides all over the county. He used *only five bottles*. It has also cured a young lady of *Consumption* in Orleans county, which her father says *no doctor could cure*."

Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

WAS BELIEVED PAST CURE.

Mr. CORNELIUS H. SMITH, merchant, *Collins Centre, Erie county, N. Y.*, January 16, 1849, said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give *better satisfaction*, than all the other medicines we have for sale. The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE. They said she MUST DIE with a *Consumption of the Lungs*. After all had pronounced the case HOPELESS, she commenced taking BRANT'S BALSAM—and now *she is well*."

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS in children and *grown persons*, cured without any *failure whatever* [...]

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather—*Cholera Infantum*, or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child. It should, however, in such cases, be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked.

HATCH HOUSE,
BANGOR,....MAINE.
THE subscriber, late of the "Wadleigh House," Oldtown, has the pleasure to announce to his former customers and to the public generally, that he has leased for a term of years the above named House, so long and favorably known to the travelling community!
This neat and commodious establishment is situated on Main Street, directly in the centre of business, and with my late improvements added to its former most excellent accommodations, it is one of the best Public Houses in this State. Its hundred rooms are neat, airy, and spacious, all having been newly furnished with every thing conducive to comfort and convenience.
The table will be furnished with all the dainties and luxuries which the market affords, served up in the choicest manner.
Connected with the Establishment is a large Stable, which will be attended by experienced and faithful Ostlers.
The subscriber hopes by strict attention to business that he will merit and receive a share of the public patronage. E. R. LAMOS.

Colds, Coughs, Croups, &c., &c.
THIS is the season for the above complaints, and there is no Medicine equal to the "Great American Remedy, for Colds, Coughs, Asthma, and all diseases of the Chest and Lungs," for the cure of them.
It has done wonders with Children, in cases of Croup, and with Adults, in cases of dry hacking Coughs, which lead to Consumption. It has been tested and is highly recommended by some of the first Physicians in the country. No family should be one day without it.

Of the greatest Medicine of Age,

Stanton's External Remedy

—CALLED—

Hunt's Liniment,

Has astonished the world in the cure of numerous and most distressing cases, that have baffled the skill of our most DISTINGUISHED PHYSICIANS, and to no purpose

HAVE GIVEN UP

Their patients as past the help of man HUNT'S LINIMENT has been applied, and the sufferer who has been given up to die, has been restored to

PERFECT HEALTH,

A LIFE SAVED.

Most Wonderful Cure of a man 60 years of Age

In the month of November, 1846, I was attacked with inflammation in my great toe, which soon broke out in a running sore *Mortification ensued* and the first joint of my toe *came off* At this time I was under the care of one of the most eminent physicians in the country and my remedy I had been in and but without any relief The agony of pain I endured no one can imagine, the disease run up my leg to my thigh, and had become so bad that my physician *despaired* of my being able to cure me, and after four months confinement to my bed, finally told me I must *prepare table*—that as soon as the wound would set in my leg *would mortify* and death ensue I gave up in despair. One of my friends brought me a bottle of HUNT'S LINIMENT, which he said would relieve the pain I applied it and the effect was wonderful, it seemed as if new life was put into me In using the bottle the whole appearance of my leg changed to its natural color the pain left me and two 50 cent bottles entirely cured me, to the astonishment of myself and the whole neighborhood *Hunt's Liniment saved my life* I am 60 years of age and I charge the public that every human being may know the value of this great medicine
